## [08.11.10 - The Museum of Everything](#)

Well there is no reason whatsoever to miss out on this museum, after all it does have everything!

This is the 3rd exhibition from the pop up museum and is curated by Sir Peter Blake who's incredible collection of old circus posters, bizarre taxidermy, and music memorabilia make for great viewing – giving the age old idea of dusty museum's a completely fun and new approach.

We give it double thumbs up and suggest that you plan a trip to North London very soon to see it for yourselves.

It's made us want to start collecting things...first up we're thinking of expanding our collection of vintage bags...
